Set of rules which Company has not complied with

Presented below are corporate governance rules, which the Company has not complied with in its activities in 2020, together with an explanation of the Company’s position for each specific departure.

Recommendation IV.R.2. Best Practice

If justified by the structure of shareholders or expectations of shareholders notified to the company, and if the company is in a position to provide the technical infrastructure necessary for a general meeting to proceed efficiently using electronic communication means, the company should enable its shareholders to participate in a general meeting using such means, in particular through:

- 1) real-life broadcast of the general meeting;
- 2) real-time bilateral communication where shareholders may take the floor during a general meeting from a location other than the general meeting;
- 3) exercise of the right to vote during a general meeting either in person or through a plenipotentiary.

Reasons for non-compliance with the recommendation IV.R.2. Best Practice:

The company provides real-time broadcast of the general meeting, however according to the Company's assessment, current shareholders structure does not justify real-time bilateral communication where shareholders may take the floor during a general meeting from a location other than the general meeting. Exercise of the right to vote during a general meeting either in person or through a plenipotentiary is a usual practice on general meeting of the Company. According to the Company’s assessment, not in full use of above mentioned recommendation does not adversely affect the achievement of the objective described in the section IV of the code of best practices.
